5	Disabled-Friendly, barrier free environment	22-23

1. Alternate sources of energy and energy conservation measures:

Use of LED Bulbs/Power efficient Equipment

Alternative energy sources are used in the college such as LED lamps are installed as and where required.

2. Management of various types of degradable and non-degradable waste:

Chemicals released through pipe after completion of practical's in the all department considering the protection of the students. The chemical that comes after the practical in the chemistry department is released into the soil through a special pipe.

3. Water conservation:

Shri Dr. R. G. Rathod Arts and Science College Murtizapur Dist. Akola have taken a feasible drive by organizing Rain Water Collecting. The downpour water on the floor is collected on roof and the accumulate drain water is discharged into the medicinal garden. The water release through the pipes leads the growth of various medicinal plants viz. types of Ficus, Terminalia, Azadirachta, Bauhinia. The entire responsibility of Rain water harvesting is borne by department of the botany.

4. Green campus initiatives:

The Green Campus, Energy and Environment Policy

Context

The connection between the college and nature is a long and getting through one, something that understudies and staff of the college know about. A gigantic region is left in its regular structure and goes about as a characteristic environment for biodiversity and a huge assortment of types of grasses, bushes and trees.

Extent of the Strategy

The Green Grounds, Energy and Climate Approaches will foster invigorating new co-curricular and extracurricular practices that urge understudies to start to lead the pack in making positive change. These drives require an exhaustive audit of all infrastructural, authoritative capacities from the outlooks of energy productivity, manageability and the climate.

→ Foundation

Water Protection through Water Gathering Framework

→ Squander the executive's processes

◆ Strong Waste Administration

◆ Fluid Waste Administration

→ Mindfulness Drives

→ Climate driven Understudy Social orders and Office Exercises

→ Without plastic Grounds

Goals of the Arrangement

1. To secure and moderate biological frameworks and assets inside the grounds.
2. To guarantee sensible utilization of natural assets to address the issues and desires of the present and people in the future.
3. To incorporate ecological worries into arrangements, plans and projects for social turn of events and effort exercises.
4. To work with all partners and the nearby local area to bring issues to light and look for the reception of ecological great practice and the decrease of any unfriendly consequences for the climate.
5. To ceaselessly work on the effective utilization, everything being equal, including energy and water, and to decrease utilization and how much waste created, separating and reusing waste where conceivable.
6. To make the grounds plastic free.

Strategy:

Clean Grounds Drives

The college had vowed to effectively arrange neatness exercises in the college and past the grounds as per the vision of Swachh Bharat Abhiyan. It resolves to go on with this Program. The expansive vision is as per the following:

1. Exercises under 'Swachh Bharat Abhiyan' will be a critical part of all the local area work being finished by NSS volunteers of the college.
2. Staff Individuals will be urged to take an interest in the neatness drive in the college grounds.
3. Occasions, for example, banner and motto rivalries, paper composing, verbally expressed word verse, discourses, dramas on 'Swachh Bharat' will be coordinated.
4. Rallies on topics associated with 'Swachh Bharat Abhiyan' in and around the college grounds will be led to make mass mindfulness.
5. Eliminate a wide range of waste material like broken furnishings, unusable hardware etc.
6. Control of the promise by understudies and staff individuals to keep up with tidiness of the college grounds and its encompassing regions on a yearly premise.
7. Commit to oversee squander and keep up with clean grounds particularly during college occasions.

Finishing Drives

The grounds scene, similar to its structures, should be visible as the actual epitome of a college qualities. It is an imperative piece of the existence of grounds, giving space to study, play, open air occasions, unwinding and tasteful appreciation. Green grounds scenes additionally oversee overflow, help re-energize groundwater, and spotless and cool the air nearby. The scene fills in as a visual portrayal of the grounds local area's obligation to maintainability. As grounds scenes are so apparent and open, arranging drives are an extraordinary method for building mindfulness around the climate. There are sufficient trees and bushes nearby. The scene of trees and plants furnish all understudies and staff with spotless and cool air and is a calming environment. The college focuses on improving this sound living space and keeping up with the advantageous connection of the organization with nature.

- Sorting out yearly tree manor drives and empowering understudy social orders to hold tree establishing occasions

Sans plastic Grounds

The college has been noticing a large portion of its obligations as far as strong waste administration since its initiation. Considering the Public authority of India's goal to boycott all single use plastics because of the perilous effect of plastic use and contamination, the college organization stringently boycotts the utilization of single use plastics in its reason to make it a 'Plastic Free Grounds'.

POLICY FOR INCLUSION OF PEOPLE WITH DISABILITIES ON CAMPUS

SCOPE:
Promotion and inculcation of values of love, compassion, through eliminating social exclusion. Focusing on inclusion of people with disabilities by promoting the rights and dignity of each individual

OBJECTIVES:
The objective of the policy is to ensure that the College becomes a disabled-friendly college that is chosen by people with disabilities for its suitable facilities of support and sensitized atmosphere that can help them grow and achieve their dreams.

POLICY:

Inclusion and Anti-Discrimination:

1. Ensuring admission of students from all social milieus and their empowerment through intensive mentoring and counselling.
2. Strict implementation of admission policies for people with disabilities in accordance with the updated guidelines for admission of the UGC.
3. Smooth functioning and strengthening of the Equal Opportunity Cell to create an atmosphere of equality with special privileges for the disabled students.

Infrastructure support:

Updating campus infrastructure to make it more accessible for people with disabilities.

1. Ramps

Provision and upgradation of mechanical and technological support for people with disabilities.
